INTERNATIONAL PRELIMINARY EXAMINATION REPORT

International application No.
PCT/US02/11200**V. Reasoned statement under Rule 66.2(a)(ii) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement****1. STATEMENT**

Novelty (N)	Claims <u>1-50</u>	YES
	Claims <u>NONE</u>	NO
Inventive Step (IS)	Claims <u>1-50</u>	YES
	Claims <u>NONE</u>	NO
Industrial Applicability (IA)	Claims <u>1-50</u>	YES
	Claims <u>NONE</u>	NO

2. CITATIONS AND EXPLANATIONS

1. Claims 1-50 meet the criteria set out in PCT Articles 33(2) and 33(3) because the applicant has claimed a novel method of providing for the automatic entry of a second market order at a predetermined price or change from a prior price to be funded from account reserves after a first order has been executed.

The closest prior art is FISHER et al (US 6,243,691), which discloses a system of automatic bidding in an auction up to a predetermined price after another bidder has bid a price above the first bidder's last bid price while the auction is continuing. FISHER et al does not teach an automatic second bid after a first bid has been executed and its auction closed.

This invention allows for an automatic method of making two transactions with a single formula, and avoiding flooding the market with an excess of bids at the same time which may increase the cost to the bidder.
